SUMMARY

Software Engineer with 5 years of experience designing and building full-stack web applications using React, Vue, TypeScript, Java, and REST APIs. Proven track record creating reusable UI components and automating CI/CD workflows to support scalable, reliable deployments on AWS. Skilled in end-to-end feature development, from planning and code review through deployment and production support.

SKILLS

- **Languages:** TypeScript, JavaScript, Java, Python
- **Frontend:** React, Vue, HTML, CSS/SCSS
- **Backend:** REST APIs, Java services, API development
- **Cloud/DevOps:** AWS CloudWatch, CloudFront, S3, Docker, CI/CD pipelines, Bamboo
- **Databases:** MongoDB, PostgreSQL
- **Tools:** Git, Intelli IDEA, VS Code, Codex, Agile Development Practices

EXPERIENCE

Crucial Learning | *Software Engineer, Platform Engineering* 2024 - 2026

- Designed and implemented scalable user interfaces for course delivery and administrative workflows using React and TypeScript, enhancing performance and maintainability.
- Developed and optimized Java REST APIs supporting learning platform workflows, handling 2,000 daily requests with improved reliability.
- Automated CI/CD pipeline triggers for shared service updates, reducing manual deployment coordination across 9 dependent services.
- Supported cloud-hosted product infrastructure using AWS CloudWatch, CloudFront, S3, Docker, and CI/CD pipelines.
- Led feature planning through production support within Agile development practices, including code reviews, testing, deployment, and monitoring.

Software Engineer 2022 - 2024

- Built and maintained full-stack product features for a production web application using TypeScript, Vue, Java, and REST APIs.
- Collaborated with engineers and stakeholders to deliver front-end feature work through an Agile development process.
- Designed and consumed RESTful APIs to support front-end features and backend services, ensuring seamless data flow and system reliability.

Associate Software Engineer 2021 - 2022

- Built Python reporting scripts that generated recurring reports for sales teams, reducing manual data preparation by 20 hours per week.
- Led development of presentation projects using Adobe InDesign, supporting production learning content workflows for 3,000+ users.

PROJECTS

Grocery List Manager

- Built a multi-list grocery manager with list creation, item creation, deletion, inline editing, and browser persistence using localStorage.

Tic-Tac-Toe

- Implemented an interactive tic-tac-toe game with reusable components, turn tracking, winner detection, and winning-square highlighting.

EDUCATION

UTAH VALLEY UNIVERSITY | *Bachelor of Science, Software Engineering* Provo, UT 2017 - 2021

UTAH VALLEY UNIVERSITY | *Associate of Science* Orem, UT 2014 - 2016
